

# Genomics India 2023

2 - 3 February 2023

NIMHANS Convention Center, Bengaluru

The two-day genomics conference aims to bring together industry, academia and research that will feature informative talks on current trends and advancements in genomics. GenomicsIndia 2023 conference is set to make India the epicenter of genomics research.

## 2 Days NGS Analysis And Genome Informatics Program

**NGS DATA QC | Covid-19 Variant calling | Assembly & Annotation  
Exome & Panels | WGS and Transcriptome | 16S and WGS Metagenome**

### Highlights of the program

- CPU and GPU computing for NGS
- Base calling - QC - Trimming - Filtering
- Assembly - Scaffolding - Annotation
- Alignment - BAM files - Variant Calling
- Actionable Mutations and Clinical Reporting
- Microbiome - WGS and 16s Analysis
- ChipSeq, Methylome and CGH
- Transcriptome / GXP and miRNA Analysis
- NGS for Biopharma and Vaccine Industry
- SARS-CoV-2 Sequence Analysis Simplified
